"The Free Mexican Air Force"

Visit "[The Free Mexican Air Force](#)" on MotoLyrics.com

In the Morelos mountains campesinos are planting their fields

Where the ghost of Zapata flies a ship that can still outrun the wind

There, free in the sky, and clear out of sight...

It's the Free Alien Air Force, flying tonight!

In the city of angels, a Man-In-Black's cooling his heels
Just waiting for orders from Uncle Sam's spooks in the field

But it's much farther south where those little green men take to flight

And then the, Mexican Air Force,

Scrambles up on an inter-cept course,

But the Free Alien Air Force is flying too high!

Flying so hi-i-igh...i-yi-yi-yi-yi!

Old Uncle Sam's cover-up-lies hide these alien trends
They might kill you if they think you've got alien friends
But they're fools who make rules out of fear of what flies in the night

Because the Free Alien Air Force is flying tonight!

Uncle Sam in his paranoid fear shut-off the mountains that sur-round

The Area called Fifty-One on Dreamland's dry Groom Lake ground

Now the only civilians who dare fly over that site

Come from the Free Alien Air Force

Uncle Sam's jets, scramble up, of course

But the Free Alien Air Force is flying too high!

Flying so hi-i-igh...i-yi-yi-yi-yi!

(instrumental)

Is not propaganda destroying the minds of the young?
The cover-up continued for power and greed in all forms!

May the lies of the evil soon fall to the truth and the light!

As the Free Alien Air Force flies freely tonight

Not even the President knows the full truth of what's
going on

And the media's co-opted, bought-out, and they're
singing their song

They think none can stop them, their arrogance too
great to fight

Then their High-Tech Secret Air Force,
Scrambles up on an inter-cept course,
But the Free Alien Air Force is flying too high!

Flying so hi-i-igh...i-yi-yi-yi-yi!

Some ships come from Altair while others are coming
from Rigel

The Men-In-Black who watch them all use the alias
"Nigel"

It's all a chess game -- Earth's black and they're white,
And the Free Alien Air Force just captured Earth's
knight!

High in the skies they're discussing their plans for their
landing

To welcome Earth to the Galactic Village in good
standing

And freedom for us is the prison for the rulers of
might!

That's why the Free Alien Air Force is flying tonight!

The Free Alien Air Force,
With Element One-Fifteen fuel-source,
Yes, the Free Alien Air Force, is flying tonight!

Flying so hi-i-igh...i-yi-yi-yi-yi!
