I come to your room
You let me inside
Come let it slide and kneel by my side
He sighs like a girl
But he's in control
Just let me believe I'll get out alive
So deep in this mess
So sick I confess
To all the evil thoughts
I admitted to you
I stagger a breath
I lost your address
Just one more clue
You're someone I knew
So deep in this mess
So sick I confess
To all the evil thoughts
I admitted to you
I stagger a breath
I stagger a breath
