Deep breath, I request a requiem for apathy  
Momentarily lost hope, but now it's back in me  
Temporarily felt defeated by the game  
Then the light came just after the nightingale sang  
Thank whoever you wish for the gift received  
I let it be the definition of me, the emcee  
Share thoughts with the downtrodden Â– intent:  
To tap into the wealth of knowledge my people gain  
upon  
The avenue  
I keep that close to my heart, though it seems like  
We're  
Oceans apart, the feedback is my motive to start  
The reconstruction of the original ark Â– you're safe  
Just let the waves carry you out the dark  
Brighter days await, the nemesis has sealed his fate  
Only the true will pass through this gate  
And you are one of those chosen Â– proof is in the fact  
You're right here Â– soul wide open to rap

### CHORUS:

Take a deep breath, release stress, please rest  
Be blessed by the beat and the essence of these texts  
Peace kept with what the deity left: respect  
And let the breeze lead me in these steps, yo we set to  
Reach the  
Peak lest we meet death, terrestrial Â– at the

Sweet behest of the celestial decree Â– yes  
Repeat "yes" we defeat weakness  
Deep breath, feel the steez in effect, and let the  
Breeze refresh...

Deep breath, I request a requiem for ignorance  
Ever since the Chop got blessed, we less venomous  
Call for the consensus here, with the rhythm we nod  
Revitalized Â– spirit in 'em recharged  
I cite love as the impetus for change in the language  
The frame speaks  
This is not 'self-embraced' Â– we  
Interlaced through break beats, the sum of our parts  
Is great, just like the summer you discovered the art

My heart beats quantized Â– synch up the SP (1200)  
Life-vein tracks back to link-up with prestige  
Hold the mic, I'm honored Â– type to write in a code  
Disciple of 'fiends, ' quoted in the 'bible' "by all  
Means"  
It's 'necessary' I give, too Â– upon takin'  
Atop the park bench start to sense the frustration of  
Men  
Respiration circulatin' in the wind  
Take it in and let the change begin Â– breathe with  
Me...
