Love, love

Let every little thing I do with love
And every little thing I say with love
Let every little thing I do with love
And every little thing I say with love

True True love, love

Sweet Sweet love, love

Holding me this way with love
Keeping me this way with love
The way you holding me this way with love
Is justa keeping me this way with love

Sweet sweet love, love
True true love, love

Love, sweet love
True love, love

We gotta reef somewhere with love
And everybody got to be there with love
We gotta reef somewhere with love
And everybody got to be there with love

True, true love, love

Sweet, sweet love, love

True true love, love

Sweet, Sweet love, love

Sweet love... true love
