Chorus

I'm not gonna give it up

I'm not goin'

i'm not gonna give it up

i'm not goin'

i will be fighting

i've got to be fighting

i will be fighting

till africa

and africans are free

i said that i been up there

and i've seen poverty beyond compare

i know slave drivers just don't care

they just don't care

chorus

africa's the richest place

but it has the poorest race

and to me it's just a disgrace

just a disgrace

africans don't wait too long

we gotta fight 'cause it's not wrong

won't you join in and sing this song

sing this song

chorus

to be poor it's a hurtful pain

livin inna poverty it's a burning shame

help yourself 'cause man you're not lame

you are not lame

chorus
