Zombie barricades failing all around you.
Find the final cache, pray it be of value.
Black eyed phantoms dropping laser guided curses.
Backward secret messages disguised in pretty verses.

Bring back the P.M.R.C., I need that motivation.
What do I win? Satisfaction of being right?
Bring back the U.S.S.R., we need that motivation.
What can we win? Eternity of night?

Are you fucking kidding me? They are well protected.
Fry you from miles around. The lot of 'em infected.

Bring back the P.M.R.C., I need that motivation.
What do I win? Satisfaction of being right?
Bring back the U.S.S.R., we need that motivation.
What can we win? Eternity of night?

Your parents, your neighbors, your sister, your
Brother.
What can we win? Eternity of night?

Your parents, your neighbors, your sister, your
Brother.
Zombie barricades are failing all around you.

Bring back the P.M.R.C., I need some motivation.
What can I win? Satisfaction of being right?
Bring back the U.S.S.R., we need that motivation.
What do we win? Eternity of night?

Bring back the P.M.R.C., I need some motivation.
What can I win? Satisfaction of being right?
Bring back the U.S.S.R., we need that motivation.
What do we win? Eternity of night?
