Another day lost in this veil of gray, fading into night
It's like I'm blind, it's like I'm paralyzed, don't feel like
I'm alive

Then you appeared through the rain, chased all my
clouds away

The day I found your love was the day life began

First time I smelled a flower, first time I felt the breeze

First time I saw a rainbow, heard a melody

Could never understand beauty till I held your hand

The day I found your love was the day life began

Never knew why people liked butterflies or watched the
setting sun

To stare at the sky seemed like a waste of time until I
found the one

Who opened my eyes and made me see all the beauty
surrounding me

The day I found your love was the day life began

First time I smelled a flower, first time I felt the breeze

First time I saw a rainbow, heard a melody

Could never understand beauty till I held your hand

The day I found your love was the day life began

When I was so cold

Frozen from all the things that my broken heart has
known

Then heaven shined on me the day I found

The day I found your love, oh yeah

First time I smelled a flower, first time I felt the breeze

First time I saw a rainbow, heard a melody

Could never understand beauty till I held your hand

The day I found your love was the day life began

The day I found your love was the day life began

The day I found your love was the day life began

Was the day life began, was the day life began
