I was mad and was accepted for treatment at a hospital
for the mentally sick
I was wild and introvert wandering alone in the night
I would scream and rage should someone disturb my
peace
So they took me away and they put me here alone in
my silent privacy
Then they gave me shock treatment
And when I awoke I was numb and remembering
nothing
Probe me mould me reassemble my brain my brain
Schizoid paranoid just terms just names just names
Why can't you leave me don't drive me insane
Your minds analyse me, your eyes penetrate me
Illusions, confusions, I'm frightened, I'm helpless
Please leave me I long to be free
I long to be free
I lie alone unable to remember
No face no name no eyes my brain just an ember
Kindle me protect my barren matter
Whose seeds may propagate yet still may shatter
They have emptied my head of its dreaming
Like paper out of a waste bin
And I yearn to be yearn to be yearn to be yearn to be
free

Cold is the climate dark is the atomic night
Searching and hoping guarding my mind from your
sight
Your evil eyes watch me your evil hands touch me
they're cold
I can stand prison but even my conscious you hold
Let me be
Set me free
Yea

Oh...

Probe me mould me reassemble my brain my brain
Schizoid paranoid just terms just names just names
Why can't you leave me don't drive me insane insane

insane insane insane....
