With your fist I solve misery when your ears won't listen
But I know
There will be a day, When I hear you say

Don't bleed my eyes out
'cause I don't wanna stay
In your world in your
In your Failing sound of misery
Once again, Throw me away...

Cause I'm your headlines of tomorrow
I'm just your tears of sorrow
Please don't bring your tears to my knees
Save your dignity

Trains they come and go
Can't you believe that I miss you so
But I know there will be a day
When the trains don't take you far away

Don't bleed my eyes out
'cause I don't wanna stay
In your world in your
In your Failing sound of misery
Once again, Throw me away...

Cause I'm your headlines of tomorrow
I'm just your tears of sorrow
Please don't bring your tears to my knees
Save your dignity
