FACE THE AGGRESSION

Time to do your best when you're left on your own  
Gotta fend for yourself, now you're far away from  
home

Kicked up the arse all the time in the past  
Now you gotta make a stand yourself

-

Give them a glare, give them a stare  
And they'll go running away  
Give a good impression they'll feed your aggression  
And you'll get stronger day to day

-

(chorus)

Look at my face see the tension  
Look at my anger see my aggression  
Look at my face see the tension  
Look at my anger face the aggression

-

Stand up in defiance never back down  
Prove to them that you're the strongest around  
You don't need any backup you can handle yourself  
Give them a lesson, show your aggression
