(Chorus)

Want to leave this all behind  
Can you change my one way mind?  
Want to leave this place  
Help me leave today.

Been the same way, for so many damn years.  
Time to go out, and face all of my fears.  
Anxious to do, all the things that we have yet to see.  
Anxious to find out, what lies in wait for me.

(Chorus)

Don't think I can stay much longer in this town.  
Get the thought of it, it always brings me down.  
I know sometimes in some cases change is good.  
Off to live my life the way I know I should.

(Chorus)

(Instrumental Break)

(Chorus 2X)
