When I close my eyes I have a world inside of me
Peopled by my thoughts of you and how things ought to
be

Here I spend my time and do the things I want to do
Helps to pass the day and it keeps me happy too

I, i, I generate a feeling

In my psychic scenery there's a special place I go
Here I am recharged with energy from down below
Nothing is between all we feel is just inside
Generate that feeling and the world will come alive
I, i, I generate a feeling

Listening to the rhythm that I hear within my brain
Everything is different my perceptions aren't the same
When I can't believe the wonder that surrounds me
I just reach deep inside and switch on my euphoria

I, i, I generate a feeling
I, i, I generate a feeling
