I have stood on the changing ground  
I have walked like a man in chains  
I tried hard to do my best  
But I could not make my way

Oh, trouble was on my tail  
And he followed me like a hound  
Till I moved one step  
On to glory  
And off of that changing ground  
Changing ground  
Changing ground  
Changing ground  
I have moved one step  
On to glory  
And off of that changing ground

What was once was sooner  
Now is later  
The first one in  
Now is last  
The hero then is now a traitor  
What once was still now is fast

I have stood on the changing ground  
I have walked like a man in chains  
I tried hard to do my best  
But I could not make my way

Because trouble was on my tail  
And he followed me like a hound  
Till I moved one step  
On to glory  
And off of that changing ground  
I have moved one step  
On to glory  
And off of that changing ground  
Changing ground  
Changing ground
