So many words i said  
Pretty things about you  
Saying that i love you  
Now my head  
Spins around in circle  
Seeing life in purple  
Wasted love  
And maybe its enough cause without im lost  
Im trying to find my way  
But i know for everyday that you

Want my love  
And i just want to give you everything you long for  
So let's go  
Let's run away

It's now or never  
Never gonna stop  
No we're never gonna stop  
Let's go forever  
Never give it up never give it up  
It's now or never  
Mark my words  
It's up to you now  
Let's run to the end of the world  
It's now or never

You saying it's fine by me  
But i know it's a lie  
I see it when we say goodbye  
Your heart is bleeding  
And crying every night and i think i know why  
Want something more  
That you can explain it's gonna be the same  
But Im trying to find my way  
But i know for everyday.

That you  
Want my love  
And i just want to give you everything you long for  
So let's go

Let's run away

It's now or never  
Never gonna stop  
No we're never gonna stop  
Let's go forever  
Never give it up never give it up  
It's now or never  
Mark my words  
It's up to you now  
Let's run to the end of the world  
It's now or never

I remember when i had you  
And told you (And told you, and told you)  
That i wanted you to be with me.

It's now or never  
Let's go forever  
It's now or never  
Never gonna stop  
No we're never gonna stop  
Let's go forever  
Never give it up never give it up  
It's now or never  
Mark my words  
It's up to you now  
Let's run to the end of the world

It's now or never  
Never gonna stop  
No we're never gonna stop  
Let's go forever  
Never give it up never give it up  
It's now or never  
Mark my words  
It's up to you now  
Let's run to the end of the world  
It's now or never
