-----Young Girl:-----

[Intro:]

(You know...)

(You never listen to me..)

Mama help i fell in love with a young girl

(That's true, so true)

(Believe girl i love you too)

My heart was soakin and i broke it with a young girl

(So true, so true, listen)

[Verse 1:]

I wasn't tryin' to lead her on

See I didn't wanna be alone

But when she smiles, she braught me home

So I braught her home,

It's not that the feeling of love is gone

Can't expect a college girl to be Grown

I can't give a fuck what so and so says

Crushes hurt both ways

What on earth, what I'm suppose to do

What on earth, what I'm suppose to do

What on earth, what I'm suppose to do

Somebody tell me what I'm suppose to do

Mama help, I fell in love with a young girl!

What on earth, what I'm suppose to do

Young girl, so in love with you!

What on earth, what I'm suppose to do

What on earth, what I'm suppose to do

What on earth, what I'm suppose to do

Somebody tell me what I'm suppose to do

My heart was soakin' and I broke it with a young girl!

What on earth, what I'm suppose to do

Young, young girl, so in love with you

The single girls are out tonight

But you have my world, my heart, my life

And I'm not lookin around

So why you lookin' down (what you lookin' down for?)

I fucked up a long time ago  
See I should have never let you know  
See I couldn't give a fuck what tabloids say (as the  
people magazine)  
And crushes hurt both ways

What on earth, what I'm suppose to do  
What on earth, what I'm suppose to do  
What on earth, what I'm suppose to do  
Somebody tell me what I'm suppose to do

Mama help, I fell in love with a young girl!  
What on earth, what I'm suppose to do  
Young girl, so in love with you!  
What on earth, what I'm suppose to do  
What on earth, what I'm suppose to do  
What on earth, what I'm suppose to do  
Somebody tell me what I'm suppose to do

My heart was soakin' and I will be in a young world!  
What on earth, what I'm suppose to do  
Young girl, so in love with you!

[Jay]

Hove got a young girl  
Hove got a young girl  
Still not quite 21  
So high string  
Such a vibrant thing  
I introduce myself, (hi miss thing)  
You're 19?  
No, you're lighting in a bottle I give you a ring tomorrow  
The scene that follows  
Screams of horror  
Classic Steven King novel  
Mama, don't think you should date someone so  
advanced in romance  
You should just wait  
Papa don't preach  
Hove don't bite  
Hove been through it, I might mold yo life  
'Cuz I'ma show you right  
Proper etecit how to hold your knife  
Keep it competetive with Oprah's ice  
Be like Janet is (take controll of your life)

What on earth, what I'm suppose to do (young girl)  
What on earth, what I'm suppose to do (young girl)  
What on earth, what I'm suppose to do (young girl)

Somebody tell me what I'm suppose to do (young girl)

Mama help, I fell in love with a young girl!

What on earth, what I'm suppose to do (too young, I'm never too young)

Young girl, so in love with you (cuz I'm never too young)

What on earth, what I'm suppose to do (too young, I'm never too young)

What on earth, what I'm suppose to do (cuz I'm never too young)

What on earth, what I'm suppose to do (too young, I'm never too young)

Somebody tell me what I'm suppose to do (cuz I'm never too young!)

My heart was soakin' and I will be in a young world!

What on earth, what I'm suppose to do

Young girl, so in love with you!

(This is where the story begins baby)

-----I Really Like You:-----

There were flashing lights  
When we met  
at the typical place you would be

In a flash of time  
my mind was set  
knew you were the girl there for me

And though you just wanted to leave  
imagine how grand it could be  
the f-u-t-u-r-e (spell the future girl)  
sit down hold your horses dont leave (where you goin girl?)

Come and sit with me  
Don't be so quick to leave  
I really like you girl,

Lets take thoughts and words  
Explore the universe  
Just dont leave me girl

I really like you girl, girl  
Since the moment we met  
I really like you girl, oh girl  
Now i know, this is it

against the wall,

is where you lean  
the most beautiful girl  
that i've seen

outta this world,  
my god you bling  
surprised that you are human being

and though you just wanted to leave  
imagine how grand it could be  
the f-u-t-u-r-e (spell the future girl)  
sit down hold your horses dont leave

Come and sit with me  
Don't be so quick to leave  
I really like you girl,

Lets take thoughts and words  
Explore the universe  
Just dont leave me girl

I really like you girl, girl  
Since the moment we met  
I really like you girl, oh girl  
Now i know, this is it

[synth break]

Come and sit with me  
Don't be so quick to leave  
I really like you girl,

Lets take thoughts and words  
Explore the universe  
Just dont leave me girl

I really like you girl, girl  
Since the moment we met  
I really like you girl, oh girl  
Now i know, this is it

Yo, i think i got the one now  
Hehe.. never me man, never me  
never in a million years...  
but i do
