Well I know we just met yesterday
But things feel oh so right
Cause you always know just what to say
And what is on my mind
Well I feel I need a special way
To ask you to be mine
But I dont know when's the perfect day
Or whats the perfect time

Babe you leave me confused
Dont know if I
should let you know or wait it out girl
Wish I knew just what to do
Im so confused

(Chorus)
So girl what you wanna see
Wanna see me get down on my knees
Wanna hear me begging baby please
Wanna hear me crying for mercy
Oh girl I wish I knew your world
I think im losing my head over you

Every bone in my body says I want you tonight
Pretty little hunny, why you there by my side
With your Hale Berry face and you Beyonce thighs
With you Juxci want to collide
?
Bump all night long with you sexy little waist
Come girl, come along,
wanna make love to you from dusk til dawn

Well I know that it maybe too soon
to know just what you'd like
But I wana know what you've been thru,
what you want from life
Its so real the way I feel so true,
its been so hard to find
Wanna now how you feel for me too,
so I can make up my mind

Babe you leave me confused

Dont know if I should let you know or wait it out girl
Wish I knew just what to do
I'm so confused

(Repeat Chorus)

Well someone once told me that you'd end up lonely
Dont let love ever pass you by
Coz I've seen it happen to people
that mattered to me with my very own eyes
Maybe they were mistaken
And I should be waiting, for you to show me a sign
Or should I just let you know that if I let you go,
Id wonder the rest of my life

[Repeat Chorus]

To be or not to be, that is the question
I dont know what to do Im in a state of confusion
All I want from you is your love and affection
Is this love real or just an illusion?

[Repeat Chorus x 2]
