Yesterday at 3h or 4h
We saw someone
Turn somersaults
Up in the air.

This man was not
An acrobat.
We all saw him
Now he is dead.

Tell me what's it for!

These cameras steal and lie
Whatever they shoot.
You better blow them all up tonight.

Another day, another year
We saw some men
Turn somersaults
Up in the air.

We saw it all,
The fireball
Come back to earth
Some hundreds died.

Tell me what's it for!

These cameras steal and lie
Whatever they shoot.
You better blow them all up tonight.

And all these TV-sets.
One thing is for sure.
We'd better blow them all up tonight.

Don't you think,

That we do need
To see it all
To read it all:
The love affairs

The breaking hearts
The fireballs
The crashing cars

These cameras steal and lie
Whatever they shoot.
You better blow them all up tonight.

And all these satellites.
One thing is for sure.
You better blow them all up tonight.

Tell me what's it for!

All the earthquakes
All the crashes
All the love affairs
And broken hearts

2X

These cameras steal and lie
Whatever they shoot.
You better blow them all up tonight.

And all these TV-Sets.
One thing is for sure.
You better blow them all up tonight.
