Ooh come on

It's just the same thing every day
It's only bad news comin' my way
Another war, there's a film at eleven
Another crime from the heart of man

I can sit here with my lock on the door
Change the channel as I try to ignore
I'll get ready with shoes on my feet
And start dancin' to another beat

(Good news)
You can read all about it
(Good news)
Speak the word, never doubt it
(Good news)
'Cause we can't live without it
I got good news on a long standin' offer
Life you can never lose

Co-co-co-co-co-come on
Co-co-co yea

Some people can't see the light of day
They need somebody to show them the way
They climb the walls in fear of the future
But God alone has the only cure

The world is spinnin' like it's out of control
There's only one thing that can save the soul
Well I'm feelin' today is the day
So listen up, I've got somethin' to say

(Good news)
You can read all about it
(Good news)
Speak the word, never doubt it
(Good news)
'Cause we can't live without it
I got good news on a long standin' offer
Life you can never lose

All this bad news is gettin' me down
Got my head spinnin' around
Don't have to take it, you know you can choose
So listen up, I've got some good news

The world needs to hear
The good news of the love of God's son
Every life can be changed
By the hearing of what He's done

(Good news)
You can read all about it
(Good news)
Speak the word, never doubt it
(Good news)
'Cause we can't live without it
I got good news on a long standin' offer
Life you can never lose

Good news, good news, good news
(Ooo I still wanna try it)
Good news, good news, good news
(Speak the word, never doubt it)
Good news, good news, good news
(I stand up and say it)
