Somewhere in the darkest night  
A stranger has lost the way  
Cold wind and a distant light  
Has carried his heart away

Some say he was one of us  
A prodigal gone astray  
But inside he's as cold as ice  
To the truth that he won't obey

He won't discern  
The point of no return

In the last daze, the final haze  
There was strong delusion to believe a lie  
In the last daze before the blaze  
They couldn't see beyond their misty trance  
To grab the truth and have a fighting chance  
In the last daze

Cold chills when the spirit speaks  
That some shall depart from the faith  
All ends in calamity  
Just when they thought it was safe  
They followed the lies the fables men devised

In the last daze, the final haze  
There was strong delusion to believe a lie  
In the last daze before the blaze  
They couldn't see beyond their misty trance  
To grab the truth and have a fighting chance  
In the last daze

Some say it's a certainty  
A sign of the times I am told  
But I weep for the souls of those  
Who will never return to the fold  
Never return to the fold

In the last daze, the final haze  
There was strong delusion to believe a lie  
In the last daze before the blaze

They couldn't see beyond their misty trance  
To grab the truth and have a fighting chance  
In the last daze, last daze

It's the last daze, oh, oh, yeah  
Na, na, na, na, na, na, yeah, last daze  
Na, na, na, yeah, last daze  
Last daze
