Smell the burning powder? There's danger in the air  
A voice from deep inside is telling you you must  
beware

Then enemy is watching every step you take  
To find his opportunity in every choice you make  
And it's no game when someone lives without His  
grace  
And who's to blame when it blows up in their face

It's a mine field, you'd better follow Him through  
God knows the way, you'd better stick like glue  
It's a mine field, better stay on His heels  
'Cause the enemy kills and the enemy steals  
So keep your head down and keep you eyes peeled  
'Cause life is, life is a mine field

Think the grass is greener? You'd better look around  
Everywhere you look another casualty is found  
The enemy is waiting for you to start to run  
Waiting like an itchy finger on a loaded gun  
And some may feel they can wander out too far  
They may heal but they may always wear the scar

It's a mine field, you'd better follow Him through  
God knows the way, you'd better stick like glue  
It's a mine field, better stay on His heels  
'Cause the enemy kills and the enemy steals  
So keep your head down and keep you eyes peeled  
'Cause life is, life is a mine field

Better leave the navigation to the one who knows the  
way  
He will bring illumination, He will light your path each  
day

It's a mine field, you'd better follow Him through  
God knows the way, you'd better stick like glue  
It's a mine field, better stay on His heels  
'Cause the enemy kills and the enemy steals  
So keep your head down and keep you eyes peeled  
'Cause life is, life is a mine field

It's a mine field, better watch where you tread  
Step off the path and you could end up dead  
It's a mine field, better stay on His heels  
'Cause the enemy kills and the enemy steals

It's a mine field, you'd better follow Him through  
God knows the way, you'd better stick like glue  
It's a mine field, better stay on His heels  
It's a mine field, better stay on His heels
