Words by Bob Hartman

Music by Ronny Cates

Got no place to run, gotta look up to see the bottom

No visible support - no one there you can lean on

You're all on your own - you know it's sink or swim

There is no doubt about it, you have to look to Him

When you think you've had enough

No more you can do

When you feel like giving up

Deadline is in view

When your time is almost gone

You haven't got a clue

Now's the time to turn your face

chorus

You're in the right place - trusting only Him

You're in the right place - kick back and just depend

You're in the right place - to see what He can do

You're in the right place - He will come through

When you're sinking fast - takin' water in your boat

No one to bail you out - you think it's all she wrote

The odds are against you - your chances slim to none

A hopeless situation - you got no place to run

No one has a rescue plan

Waiting in the wings

Now's the time to call His name

He can do all things

When your self-reliance fails

You still have a prayer

You will have to trust His grace

repeat chorus

When you abide, He will provide

Never shorthanded

When you will pray, He'll make a way

He won't leave you stranded

repeat chorus
