Words by Bob Hartman

Music by Ronny Cates

You can think of times when you had the right chance

You could make a choice when nobody could see

You could think of ways of defending your deeds

Justify the way that you wanted to be

Wait just a minute

Wait just a minute

chorus

Hey, did you ever think twice

Something inside says stay away

Hey, did you ever think twice

When there's still time you can go the other way

Hey, did you ever think twice

You can think of things that you wanted to try

You can think of things that you wish you could see

You could go a way that would seem to right

Thinking of a place that you wish you could be

Wait just a minute

Wait just a minute

repeat chorus

Face to face with sin

You better think again, you better think again

Take another look for a second time

And give a second thought to where you draw the line

Wait just a minute

Wait just a minute

repeat chorus
