speaking - We're gonna take you back, to the way
things used to be. When a love song, was a love song.

You have got to have
The bluest eyes I've ever seen
And when I wake from dreamin'
I am screaming out your name
Yes, I must confess
You simply are the best
And there's no point denying
When I'm lying by your side

It's more than just a crush
Everytime we touch
'Cause baby you know
You make me feel brand new
Like there's been no one else but you
For the first time
I feel like this could be
the last time I'm really
(true love never lies)
Fallling in love

And for a thousand years
I hope to stay right here (right here)
Wrapped up all around you
So glad I found you when I did
You make me feel so pure
Like you're some kind of cure
Baby you're my healer
You heart stealer of a man

It's more than just a crush
Everytime we touch
'Cause baby you know
You make me feel brand new
Like there's been no one else but you
For the first time
I feel like this could be
the last time I'm really
(true love never lies)
Fallling in love

Ohhhh
Yeah
Mmmm

Hold Me
Baby 'Cause You Know Me
With every single touch
It's More Than Just a Crush

(Baby you know)

Reach Me
Only you can see me
And what i crave so much
Its more than just a crush

It's more than just a crush
Everytime we touch
'Cause baby you know
You make me feel brand new
Like there's been no one else but you
For the first time
I feel like this could be
the last time I'm really
(true love never lies)
Fallling in love

For a thousand Years...
