Another power, another source,
I hunt your soul for my inner force,
I take my shots and I always hit,
I make my will and I never quit.

I am projecting your fears,
Straining your faith and hope,
Don't waste your life to stop and thing,
I'm stalking you and won't even blink.

Your heart will come out,
Your soul will cry,
You have no option or way to excuse,
This is the end of your little life.

DIE,
I'll only stop when the world is in flames.
YOU'RE A FUCKING LIE,
I'll only stop when I erase your face.
