Though you tried to be really nice  
The salesman gives you no advice  
He doesn't give you any information  
He definitely needs a long vacation.

You didn't come here to have a fight  
Especially with someone whose not that bright  
Being treated like this isn't funny  
Go somewhere else with your money

From this gent you wouldn't buy bread  
So unfriendly, what's in his head  
Staring at him you ask yourself  
What is with his mental health

Be prepared, this will repeat  
Antoher trial to defeat

Though you tried to be really nice  
The salesman gives you no advice  
He doesn't give you any information  
He definitely needs a long vacation.

Lookin' in his face you feel a little sick  
Think you need a dagger, need it quick  
A vicious deed is now contrived  
Your heart enraged, will he survive?

Be prepared, this will repeat  
Antoher trial to defeat

Though you tried to be really nice  
The salesman gives you no advice  
He doesn't give you any information  
He definitely needs a long vacation.
