

Coprofago "Constriction"

Visit "[Constriction](#)" on MotoLyrics.com

Everything seems to move on, to evolve...
Everything besides the unanswered
Fundamentals.

Created by us to keep the illusion of knowledge
Grasp trough constriction the embrace of an
Incoming sleep, a true shapeless saviour

Move one, descending through frostbitten
Stages, chasing the key to deshumanize all.

Let rats take the lead... the embodiment of
Mandatory new virtues

Created by us to seep the words to be
Conquered
Grasp trough constriction the embrace
Of an incoming sleep

Let's keep descending through frostbitten
Stages chasing the key to deshumanize all
