

All About Eve "Candy Tree"

There's a place I know
Where the children go
Every summer's night.
They run as fast they can
Behind the raven-man...
Who shall he invite ?
The rather awkward girl
With the ragged curls
Much to her delight !

"come with me to the candy tree
You need to free your mind...
Come with me to the candy tree
And leave it all behind - "
Well it's an underhand
Kind of wonderland -
She can't find the door;
Because he's keeping her as a prisoner,
Lost forevermore.
And now the queen is red
And she wants her head
Just to keep the law.

"come with me to the candy tree..."
