Firelight, save me, from your, wanting  
Firelight, take me, to your, safety  
Firelight, yet you sold me, from a place that's, hurting  
Only firelight, told me, there's a warm wind, blowing  
There's a warm wind blowing, there's a warm wind  
blowing

Untrace the mountains, out run the water, our  
borrowed

Bodies broken down  
Walk through the firelight, onto the soldiers fight,  
Light hands are racing now  
Un pour the victims, our archers walking, I'll let you  
Make my ground  
From arizona, to barcelona, our stars are vacent now  
This time is over it's now or never
