Suffer fine
You know your sign
Advise the sun
And visions of eyes

And now you have
You know we can
Your sun dressed eyes
And visions of mine

You came from miles
Your sun dressed eyes
You bled your soul
And visions to find

You know your crime
It's on your side
You sanctify
Your visions of mine

I'm not much farther
You save you cradle me

I wish I was much farther
You stealing you trailing you pushing
Away from me, a way from me, wait on me

You know we can
You know your sign
Advise the sun
And visions of eyes

You know your crime
It's on your side
You sanctify
And visions of mine

I'm not much farther
You save you cradle me

I wish I was much farther
You stealing, you fucking, you pushing

Away from me, a way from me, wait on me

Drop your sign, drop your sign, drop your sign

I come from robbers and thugs

I want to think they can love

I follow the birds in the sky

Just like my heart has no eyes

Off set eyes

Noticing

Our northern crime
