Cordrazine
"I Never Cared Before"

Well I'm
Too old to leave but
Much to young to know
You sang your burning heart for me
You said I should have learned
Oh my love
I was blinded

Too blind to believe but
Still too old to know
You held your burning heart for me
Still I couldn't love
But all my love
Love is blindness

But if you
Leave me alone tonight
Well here's where I'll stay oh
One sweet love for you to give
But you know just where I'll be you
Know just where I'll stay

Hold me too long
You know just where I'll be oh
One sweet day
All my love
Love is blindness

Still to old to leave
Still to young to know
You held your burning heart for me
Still I didn't know
All my love
Love I was
I was blinded

But if you
Leave me alone tonight oh
Well here's where I'll stay oh
One sweet love for you to give
But you know just where I'll be and
You know just where I'll stay

Hold me too long
Know where I'll be oh
One sweet day
Hold me too long
Know where I'll be oh
One sweet day

(Choir)
