Do it again
She said to me
So I nailed my hand to the baseboard floor
Hysterically
Laughing at me
She begged the question and I begged for more
Now I water
The thorn you rammed
Deep into my side watch it fertilize
You shoved your finger
Right down my throat
And you made me puke up all of my pride

Pop the Beach Balls
Burn the photos
C-4 your safe
And you'll never grow old
So get out of dodge
And become a thought
Cause once you're a thought, hopefully you're
forgot

If we break up
Don't write a song that would
Drag my name through the shit, the mud
Cause I've seen some solid swimmers who
drowned
When you unleashed the dam and cause the flood
But with free choice
There comes freewill
And I'm so happy she decided to leave
Now I'm alone
Demons come home
And now my pen is rolling up it's sleeve

Pop the Beach Balls
Burn the photos
C-4 your safe
And you'll never grow old
So get out of dodge
And become a thought

Cause once youâ€™re a thought, hopefully you're
forgot

Pop the Beach Balls
Burn the photos
C-4 your safe
And you'll never grow old
So get out of dodge
And become a thought
Cause once youâ€™re a thought, hopefully you're
forgot

Because my morals have begun to decay
And all my friends have the same thing to say
They say that good times have faded away
They say that their all worried about me
Cause I feed birds in the cemetery
And I rake leaves off the grass in my grave
Because my memory lane is now paved
(Nothing wrong)
My memory lane is now paved
(Thereâ€™s nothing wrong)
My memory lane is now paved
(Nothing wrong)
My memory lane is now paved
(Thereâ€™s nothing wrong)
But now my memoryâ€™s back and thereâ€™s nothing
wrong
Thereâ€™s nothing wrong (x4)
I said thereâ€™s nothing wrong
Thereâ€™s nothing wrong(x3)
