"Goldie's Last Day"

Visit "[Goldie's Last Day](#)" on MotoLyrics.com

Puppy love puppy love
Yes she gave all she had
Not like a brother or sister more like a mom or a dad
We never asked her never gave her a choice
We just barked out commands
Sit stay don't beg
Stop licking my hand
Those days are gone now
I wish goldie could come out and play
Goldie's last day
Godlie's last day
If a picture paints a thousand words
There's nothing left to say
I wish you coulda been there for goldies's last day
She was eleven to you and me what's that in dog years
77 that's more than 11 she outlived her peers
The talk around town is that goldie passed away
Goldie's last day
Godlie's last day
If a picture paints a thousand words
There's nothing left to say
I wish you coulda been there for goldies's last day
We are confident that this incident was not an accident
As per our investigation
We are confident that this incident was not an accident
We are confident that this incident was not an accident
This incident was not an accident
Oooo, goldie's last day
Goldie's last day
If a picture paints a thousand words there's nothing left
to say
Wish you coulda been there for goldie's last day
Wish you coulda been there for goldie's last day
