You've got to reach out and take it  
Before it goes by too fast  
They say that life is what you make it  
I think we've made it at last

(Chorus)

Some people say we're crazy but  
We're all spinnin' round, we're all spinnin' round  
But you and me we've got something to say  
We're all spinnin' round, we're all spinnin' round  
Just because you think you're lucky well  
We're all spinnin' round, we're all spinnin' round  
But you and me we've got something inside  
I think we're gonna make it

You've got your four wheels spinnin'  
You dig 'em down into the ground  
Just when you think you're winnin'  
They're all puttin' you down

(Chorus)

Round, round, round spinnin' around  
Round, round, round spinnin' around  
Round, round, round spinnin' around  
Round, round, round
