(We're gonna do a whole one, this a keeper)

We was drivin' down a road  
Doin' what would please us  
And talkin' how the wise men  
Found baby Jesus  
We was on our way  
To do some gigs  
Hit the brakes too late  
Runned over some pigs

Pigs, pigs, I got nothin' agin' 'em  
But if you's have many pigs  
You ought to learn how to pin 'em  
(And this is the sad part)

Buy you a watch-dog  
And name that dog Rover  
To keep your pigs off the road  
So they don't get runned over  
(It's a true story...  
I, um, I wouldn't keep that)
