

## **Peyoti For President "We The People"**

Visit "[We The People](#)" on [MotoLyrics.com](#)

We the people get down with the sound of the clown  
like a man on the moon,  
We the people get mad when you tell us that we need  
another army platoon.  
We the people don't buy all the shit that exudes from  
your lip with the jip that you jip  
We buy the papers that give us information see the  
faces you're facin' go boom!!

Ay e- ay ay e- ah ah ah

(Scat)

We make plans for a new civilisation, hope for the  
world, hope for the nation.  
We don't buy your political lies with your fantasy  
highs, your celebrity lives,  
Down with the television, bye bye  
Down, down with the magazines bye bye  
Down, down with the things we no longer wanna buy

Down Mr politician man bye bye

Commodity, pathology an craven anti-ology,  
Competing in a partnership of broken ideology  
God made the world but the world now makes God  
& we sell him on the internet n reinvent the alphabet  
Take our words and they twist all the meaning,  
Kill you for talking and pay you for stealing  
The liberty and freedom of another nation  
But what the hell, if it stops the inflation  
A capitalist system of globalisation.

MMMMmmm, ya know, ya know, ya know,.. but listen  
Because your number is up.....
