Do it again  
She said to me  
So I nailed my hand to the baseboard floor  
Hysterically  
Laughing at me  
She begged the question and I begged for more  
Now I water  
The thorn you rammed  
Deep into my side watch it fertilize  
You shoved your finger  
Right down my throat  
And you made me puke up all of my pride

Pop the Beach Balls  
Burn the photos  
C-4 your safe  
And you'll never grow old  
So get out of dodge  
And become a thought  
Cause once you're a thought, hopefully you're forgot

If we break up  
Don't write a song that would  
Drag my name through the shit, the mud  
Cause I've seen some solid swimmers who drowned  
When you unleashed the dam and cause the flood  
But with free choice  
There comes freewill  
And I'm so happy she decided to leave  
Now I'm alone  
Demons come home  
And now my pen is rolling up it's sleeve

Pop the Beach Balls  
Burn the photos  
C-4 your safe  
And you'll never grow old  
So get out of dodge  
And become a thought  
Cause once you're a thought, hopefully you're forgot

Pop the Beach Balls

Burn the photos  
C-4 your safe  
And you'll never grow old  
So get out of dodge  
And become a thought  
Cause once you're a thought, hopefully you're forgot

Because my morals have begun to decay  
And all my friends have the same thing to say  
They say that good times have faded away  
They say that their all worried about me  
Cause I feed birds in the cemetery  
And I rake leaves off the grass in my grave  
Because my memory lane is now paved  
(Nothing wrong)  
My memory lane is now paved  
(There's nothing wrong)  
My memory lane is now paved  
(Nothing wrong)  
My memory lane is now paved  
(There's nothing wrong)  
But now my memory's back and there's nothing wrong  
There's nothing wrong (x4)  
I said there's nothing wrong  
There's nothing wrong(x3)
