When you call my name  
I will be there, by your side  
Even if you're far away  
Oh, I'll still be there

Looking at the stars  
I make a wish every night  
Hoping they will let you stay  
Just one more day

When I hear your breathing  
I can read your feelings  
If you stay  
We can find a way

Know that love  
Will make the weather  
If we'll stay together  
You and me, only way to be

If you leave me  
There will be no sun in the sky  
And my life will turn to grey  
All in the rain

Tell me if you stay or go  
I'll try to be strong  
Even if you go or stay,  
I'll always be there

When I hear your breathing  
I can read your feelings  
If you stay  
We can find a way

Know that love  
Will make the weather  
If we'll stay together  
You and me, only way to be  
( x3)
