"Even a Whisper"

Just when you think you've seen it all
You find the question
Looming like a shadow overhead
Reawakens your obsession
To find the truth and put your doubts to bed

On and on and round and round
Here among the lost and found
Listening for a certain sound, even a whisper
Until the truth brings you around
Keeping one ear to the ground

And when you finally see the Light in all its glory
Shining on the truth of who you are
One more searcher with a story
A wiser fool who's following a star

On and on and round and round
Here among the lost and found
Listening for a certain sound, even a whisper
Until the truth brings you around
Keeping one ear to the ground, ground

On and on and round and round
Here among the lost and found
Listening for a certain sound, even a whisper
Until the truth brings you around
Keeping one ear to the ground

On and on and round and round
Here among the lost and found
Listening for a certain sound, even a whisper
Until the truth brings you around
Keeping one ear to the ground
To the ground
