more and more
as time goes by
your fall; slip away
but everywhere i want to go
says i'm underage
but how was i to know
that every time i twist and shout
i was losing to myself
well
come on and bust a move
as we dance we lose our innocence
come on you're only good
just because
i fail at everything
(woo)
come on and do what you want to do
just shake it loose
and i'll be shaking too
i wonder why as time goes by
i just feel the same
stuck in place
i wait so long
just to feel so lame
but how was i to know
that every time i twist and shout
i was losing to myself
