Cola vida virgin oil
And a crystal chandelier
Glass of her Don Perignon
And my paper cup of beer

I got burned
By the fire we started together
Cut the thread
That kept us forever
Du du du du du
Du du du du

Think of something nice to say
Add the mumbling from the singer
Everything's a darker shade
As the week now turns to grey

I got burned
By the fire we started together
Cut the thread
That kept us forever
Du du du du du
Du du du du
Ahh
Du du du du du
du du

I got burned
By the fire we started together
Cut the thread
That kept us forever

I got burned
By the fire we started together
Cut the thread
That kept us forever
