I've come to crash your party
And no, you can't decline
I've come to crash your party girl
'Cause you ruined mine
I'm smashing all your records
And soon you'll have a mess
But baby, baby, don't complain
Your party stunk at best
I refuse to let this get to me this time

It boils down to ethics
You made my guests look bad
I guarantee that you'll regret
The fun you had
I'm giving you a reason
For making such a fuss
I promise as the host I'd get
Revenge for all of us
Because I refuse to let this get to me this time

I refuse to let this get to me this time
I refuse to let this get to me this time
I refuse to let this get to me this time
I refuse to let this get to me this time
I refuse to let this get to me this time
