Sixth and Green is the one place in November
When the air is cold and the leaves blow on the ground
And i dont think that i can even remember
Why it was that i came to this town

Cause I just wanna be lonely tonight
Just me in my maker in this cold lonely night.
ya ya, oh ya, alright

This is me im neverending
To what i known constant for a year
And im so scared this pain that im descending
sometimes i just want to run away in fear

I just wanna be lonely tonight
Just me in my maker in this cold lonely night
ya ya, oh ya, oo alright

I havent heard your voice in two weeks now
and its just a patience
thats been wearing me thin
And i cant just help the wondering
If somehow
we can tear these pages out
and begin again

Cause i just wanna be lonely tonight
Just me and my maker in this cold lonely night
Ya I just wanna be lonely tonight

With no one around to see this sight
Of me lying here
Cuase this is the hardest thing I've ever done before
I said this is the hardest thing I've ever done before
I said this is the hardest thing I've ever done before
And i dont wanna be lonely, No
I dont wanna be lonely no more
I wont be lonely tonight
With i make her holding me...
