I am looking for an early warning  
Listen to me please  
Will you wake me up in the morning?  
I am on my knees

Once I said that I had nothing  
Misunderstanding  
I will try to follow wherever you go  
Yeah

Please apply yourself to me sweetly  
I am gonna crash  
Will you tell me if I am burning?  
I was built to lash

Once I said that I had nothing  
Misunderstanding  
I will try to follow wherever you go  
Yeah

Once I said that I had nothing  
Misunderstanding  
I will try to follow wherever you go  
And i (and i)  
Will try (will try)  
To follow wherever you go  
Yeah
