watching a setting star
i lost myself in orbit
and a comet
flew by as i went under
all of this angry space
im wasting all my time

i
cant
cause you dont know who you are
i
cant
rise the setting star
and im looking for a new way out

watching a burning sun
i lost myself in your eyes
and a comet
flew by as i went under
all of this angry space
im wasting all my time

i
cant
cause you dont know who you are
i
cant
rise the setting star
and im looking for a new way out

all of this angry space
im wasting all my time

i
cant
cause you dont know who you are
i
cant
rise the setting star
and im looking for a new way out
