You can take my heart  
You can take my time  
Long as I got you by my side  
Baby you can have it all

You're such a rush  
More than a crush  
Never been so sure that I'm in love  
Cause baby you got it all

You're my angel  
Let's fly away tonight  
Never let  
We could run away  
We could fall in love  
Stay up all night til we see the sun  
Just say the word and girl it's on

It's all I wanna do and it's all for you  
Won't stop til I make your dreams come true  
Just say the word and I'll give you

Whatever you like  
Whenever you like it  
Whatever you like  
Whenever you like it

Take you to the mall  
Take you to the show  
Anywhere you wanna go  
Take you all around the world

All your favorite clothes  
All your favorite shoes  
Baby you don't have to choose  
As long as you're my boo

You're my angel let's fly away tonight  
Never let go

We could run away  
We could fall in love

Stay up all night til we see the sun  
Just say the word and girl it's on

It's all I wanna do and it's all for you  
Won't stop til I make your dreams come true  
Just say the word and I'll give you

And when you see my name in flashing lights  
I wanna see you right there by my side  
Then I would have it all

Whatever you like  
Whenever you like it  
Whatever you like  
Whenever you like it

We could run away  
We could fall in love  
Stay up all night til we see the sun  
Just say the word and girl it's on

It's all I wanna do and it's all for you  
Won't stop til I make your dreams come true  
Just say the word and I'll give you
