The way you betrayed me is unspeakable  
Although it comes as no surprise  
Cause anyone who's ever owned my loyalty  
Repaid me with insanity  
And still you cry about your misery  
The way you always

Tell your tale like you're a refugee  
You lies intentional and cold  
And if you found a way, the perfect way to finish me  
And free my tortured soul  
What reason would it hold?

All I ever wanted was to know a feeling less than sorrow

But endlessly, so many worlds apart still I fight the pain  
That endlessly and always in my heart has to live so  
endlessly

I'll never surrender to the treachery  
The soulless beast behind your eyes  
I once mistook or overlooked your vanity  
My heart's no longer blind  
If it takes the rest of time

I will wait forever and a day  
Watching you wish there's no tomorrow

But endlessly, so many worlds apart still I fight the pain  
That endlessly and always in my heart has to live so  
endlessly

Tell your tale like you're a refugee  
You lies intentional and cold  
And if you found a way, the perfect way to finish me  
And free my tortured soul  
What reason would it hold?

All I ever wanted was to know a feeling less than sorrow

But endlessly, so many worlds apart still I fight the pain

That endlessly and always in my heart has to live so  
endlessly

Endless guilt and pain  
Endless walks in the rain  
Endless tragedy  
Endless, endlessly...
