Ah ah ah ah ah ah ah
Now that I have the rest
I sit in the darkness be blast
fall after confession my
Last and long to the term
Dream and peace, heartbeat that cease
... the rhythm at least
The endless, I say eternity
Will be your way of learning
Your way of learning
Eternity... Eternity

We're living our life for living
We believe in heaven above
We're living our life until eternity
Eternity
We're living our life for living
What's in heaven above
We're living our life until eternity
Eternity

Wake up, wake up !

.... the sky I to a ...
... sound....do you away
Will I stay there forever
Who knows the answers that I haven't
Ashes, the ashes the dust of muscle
I will have guide I trust
See miracle.....
..... eternity
