Visit "[59 Minutes](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There's a minute every hour  
I will stop and go away  
All of the people, they want to sell me  
A package of something to make them rich  
I work for 59 minutes, to share one with you  
I work for 59 minutes, to share one with you

All of the police have left a hole up in the atmosphere  
Where all of the things that matter here  
Will vaporize without a trace  
And we will never separate  
The difference between every face  
The eyes always give you away  
The eyes always give us away  
The eyes always give you away  
The eyes always give you away  
The eyes always give you away

Today the population watches  
On amazing perfect boxes  
This is the place where the people tell me  
They know the way to a passage to somewhere  
I work for 59 minutes, to share one with you  
The eyes always give you away  
The eyes always give us away  
The eyes always give you away  
The eyes always give you away

Nothing will save you from human behavior  
Nothing will save you, you build your own saviour  
Nothing will save you from human behaviour  
Nothing will save you from human behaviour  
The eyes always give you away  
The eyes always give you away
