Oh!
Oh!

I've got just what you want.
You've got just what I need.
You want my body baby, so let me plant the seed.

You are my heart's delight.
You set my soul a fire.
I wanna. Doin' you. You make me hot.

If I know who that nigga and the other thinking it's
wishful
Sick wit it with a ridiculous flow
Take over, make over, move over.
Jokes over, flows over, who Told ya?

It's a down, except I flipped the script.
From the window to the wall just get low.
Rock and roll, hip-hop music, and disco
T dot O to Atlanta to Frisco

Rufis, oh yeah, with a new twist oh
So y'all can get a gist of the rhyme that I do not miss. I
will not fail.
Please take a glimpse at the time at your own risk. I will
not bail.

Fuck da boys, grab the flock. The planet rock.
The fiends and the fan on the block.
Team's scheme on the knock.
My hand, you want, dreams of your man.

Oh!
Oh!

I've got just what you want. (What I want)
You've got just what I need. (What I need)
You want my body baby (Body baby) So let me plant the
seed. (Plant the seed)

You are my heart's desire. (Heart's Desire)

You set my soul on fire. (Soul on fire)
I wanna. Doin' you. You make me hot.

Grab the master's plans with ease.
Those seeds can't see past me.
No patch in the plan, the raps are not flash .
Free at last- We never recycle the same songs from
last week.

Thank God almighty , we are free at last.
We went back to ash, before raps harassed me.
No relax. Do not pass. Do not ask me.
But you can get backstage where you can see ass free.

Elope- The Goat.
Nigga vote for ya boy.
I hope ya lied to the rope and the board.
Smokin the dope.
Relate to the gate.
To the words you wrote, with the moving the scales ya
say:

I've got just what you want. (What I want)
You've got just what I need. (What I need)
You want my body baby (Body baby) So let me plant the
seed. (Plant the seed)

You are my heart's delight. (Heart's Desire)
You set my soul on fire. (Soul on fire)
I wanna. Doin' you. You make me hot.

I've got just what you want. (What I want)
You've got just what I need. (What I need)
You want my body baby (Body baby) So let me plant the
seed. (Plant the seed)

You are my heart's delight. (Heart's Desire)
You set my soul on fire. (Soul on fire)
I wanna. Doin' you. You make me hot.

How's everybody feeling out there?
You want my body baby?
I'll give you my body baby.
You want it.
I'll give it to ya.
(mumbling)
You want my body baby?

Thank you very much. Goodnight.
