[Intro: Pharrell Williams (Diddy in background)]

Hey yo, ladies and gentlemen  
You could never imagine, what's about to happen right  
now  
(Hey yo check this out)

[Verse: P. Diddy]

Hey yo I'm back by popular demand and shit  
Niggaz want the crown but can't handle it  
This rap game's getting scandalous  
I done lost my best friend in Los Angeles  
My other nigga turned Evangelist  
But I can't quit cause I'm on some Evander shit  
Fuck the money and the white sand and shit  
When it's said and done you gunna understand this  
shit  
Your man talking about Hummers and little cars  
That only fit in his little house little garage  
His lifestyle is just a little mirage  
He the type of cat that never had a menage  
Backrub, you know a little massage  
Tight shit you get when you Head Nigga in charge  
I'm in the Rolls listening to the bars  
Leaned back wit a chick smoking on cigars  
From Bogota, Colombia, chicks from Panama  
The diamond fellow, mami hello  
Pull up in the drop my Ferrari yellow  
Pull off your top make it shake like Jello

[Chorus: Pharrell Williams (Lenny Kravitz)]

DROP EVERYTHING!! When you walk in the door  
Free your self 'fore get ya ass on the floor!  
Ah be a maniac-ah! lose control (just lose control)  
GET NAKED!! Strip down to your soul!

[Bridge: Pharrell Williams]

Well strip down! (work)  
Show me some more! (work)  
Is that all you got?! (work)

You got to make me believe it girl! (work)  
C'MON NOW!!

[Verse: Pharrell Williams]

I'm sitting on your Louie bag, now you're braining it  
Lookin like your little sister came that painted it  
Slick, like calamari tentacles  
Staring at my chain I kicked off your Jimmy Choos  
I weigh 155 pound when I'm soaked ma  
That Rolls Royce Phantom, it ain't no joke ma  
Weed brownie at 2, but I will not smoke ma  
Don't talk about licking if it ain't deepthroat ma  
I give you great dick, I make your face flip  
Then take ya aboard a nigga Spaceship  
Star Trak, my fault I mean Mother Ship  
Put on the cameras, try it you'll be loving it  
And you can bring your girl and we can get on another  
tit  
Me? I'm a Mount Airy fellow  
Or down in Florida wit the Maranello  
Driving slow watch the mami mouthing "hello"  
Get wit ya man if you want love you better  
Trying to get +Dirty+ like +Aguilera+  
Yep, he's a skater the kids that's rhyiming  
But I'm also young and rich wit a big ass diamond

[Chorus]

[Bridge]

[Verse: Loon]

Hey yo my intro's crazy, I'm in a new Mercedes  
Rocks the same colors as daisy's  
Y'all niggaz is lazy, I'm on my j-o-b  
And that's why ya hate on me  
But here's the update, Loon ain't got nothing but cake  
And power from here to upstate  
Y'all sweet as cupcakes  
So why niggaz stay wit tough faces?  
I stay trying to figure what Loon and Puff make

[Verse: P. Diddy]

Bitch please! you ain't been in a helicopter  
Flying 'round Jesus statue wit a mountain in Brazil  
Bitch please! you ain't never been to Guatemala  
Eating shrimp by the dollar taking flights to Negril  
Bitch please! and you ain't been wit Lenny and Pharrell  
Me and Loon in the hills giving mami's the chills  
Bitch please! and you ain't never seen a hotter nigga in  
the game  
12 years selling records by the mill, c'mon now

[Chorus]

[P. Diddy]

Let's work (huh yeah), let's work  
Let's work (huh yeah), let's work  
Show me your soul! c'mon now!  
Show me your soul! c'mon now!  
Show me your soul! c'mon now!  
Lenny Kravitz, Pharrell, they call me Diddy!  
We wanna see the masses shaking out there  
It's getting sexy in here  
Alright y'all, alright alright!

[Chorus]

[Outro: P. Diddy]

C'mon and c'mon now  
Everybody c'mon and c'mon now  
Everybody c'mon and c'mon now  
Let's rock, c'mon and c'mon now  
Just shake, c'mon and c'mon now  
Just stop, c'mon and c'mon now  
Just clap, c'mon and c'mon now  
Everybody c'mon and c'mon now  
Rejoice.. I like the way you looking out there!  
I like the way you looking out there!  
Don't stop.. and another one, and another one  
Bad Boys 2, the Saga Continues!  
We won't stop, B.I.G. forever!  
Let's go..
